Dear Alisha,

February, 2008

I enjoy producing events at the Nokia Theatre and would highly recommend the theatre to any producer or event planner. The location is great, the space is flexible and the entire staff is very accommodating and easy to work with. You are all willing to work with me to make the most of my event and the venue...and within my budget. The production staff is also willing to make changes on the fly which is critical to live events!

Best Regards,
